LANDSCAPE DESIGN **CONTE & CONTE LANDSCAPE ARCHITECTS**

Principal **JOHN R. CONTE, RLA, ASLA**, conteandconte.com

Conte & Conte, LLC Landscape Architects is dedicated to enhancing the relationship between people and their natural environment. Applying both art and science to landscape design, Conte & Conte specializes in the planning and design of client properties with the goal of maximizing both functional and aesthetic objectives.

Conte & Conte was founded in 1997 by John and Kim Conte after working together for over twenty years in the landscape construction industry. Combining their talents and their successes, they have built a design firm that is a powerful combination of creative design and highly effective project implementation.

Their design team will work hard to create beautiful, problem-solving results for your project regardless of the challenges of the site, using state-of-the-art 3D software (as pictured above) to present designs with stunning realism and clarity.

Building upon solid relationships with many of the design professionals in the area, they have become a trusted resource to many local architects, engineers and designers. Understanding the importance of collaboration, Conte & Conte will be a valuable team member for your project, especially when involved in the early stages to help you and your consultants maximize the potential of the site and avoid costly mistakes.

Conte & Conte also values community. John and Kim actively participate in several local nonprofit organizations in order to give back to the community in which they live and work.

John sits on the Town of Greenwich Architectural Review Committee and is a board member of the Greenwich Land Trust, Greenwich Green & Clean and the Greenwich Audubon Center. Kim serves on the Board of Directors of the Greenwich Garden Education Center.
